Why choose TasTAFE

The TasTAFE WHS for Managers and Supervisors Course is well respected for training confident and effective leaders to prevent physical and psychological harm in the workplace

Build healthier and safer workplaces together

- Hone WHS leader knowledge and skills in a convenient and engaging course
- Great overview of WHS laws, risk management, consultation, training and record keeping
- Learn current WHS legislation, emerging trends, best practice management compliance

Blend of online and face to face delivery

- Online learning and assessments with compulsory 1 day workshop

Locations

- Delivered at the Devonport, Alanvale or Campbell St Campuses
- Commercial courses at your workplace by request
- Occasionally regional courses may be available

Who should attend

- Anyone responsible for or interested in WHS leadership and management
- Officers, managers, supervisors and people who want this unit of competency

Resources

- Printouts of the assessment tasks are provided in the workshop

Cost

- \$380 per participant, inquire or apply online, or request a group quote

Statement of Attainment

- BSBWHS411 Implement and monitor WHS policies, procedures and programs
- This unit is in 3 Certificate IV qualifications in WHS, Business and Human Resources

Support

- Access teacher for support, TasTAFE libraries, client and student services

Build confident, effective managers of WHS

Topics

- 1 – Communicate WHS laws, policies and procedures
- 2 – Manage risks - identify hazards, assess risks, control risks and review
- 3 – Consultation through health and safety committees, representatives and meetings
- 4 – Training for WHS awareness, competencies and licences
- 5 – Maintain records of hazards, risks and incident trends for continual improvement

Practical, activity-based learning

- Convey how to access WHS laws
- Review relevant safety statistics and trends
- Report and investigate incidents, including near misses
- Report hazards, use risk matrix, create action plans
- Consult to tap into your workers' knowledge, experience and insights
- Conduct a WHS training needs analysis
- Record on risk register, action plans, monitor compliance through inspections and audits

Strengthen compliance and safety culture

- Demonstrate healthy, safe behaviour as a leader—set the standard
- Encourage open communication about hazards and improvements
- Recognise and reward positive health and safety behaviours
- Hold regular staff meetings, toolbox talks and consultation sessions
- Encourage workers to report near misses without fear
- Induct, coach, mentor and train workers so they are competent
- Promote shared responsibility for health and safety across all levels
- Ensure workers feel supported, respected and heard
- Provide continuous learning opportunities on WHS
- Document, document, document
